

Residential styles for all tastes

You deserve the best

Wellington & Wairarapa

Our residential Suite is designed to accommodate small, medium and large homes. Custom made joinery available in wide range of colours and finishes, designed to suit the individuals taste and budget.

Glass and Glazing

We cover all aspects of glass and glazing, all custom made and designed to suit individual needs and tastes.

Balsutrades • Pool Fences • Conservatories
Overhead Glazing • Skylights • Louvers
Mirrors • Shower Doors • Splashbacks
Pet Doors • Security and Insect Screens

Keep out mosquitoes and undiserables with custom made and colour finshed doors and screens to match existing joinery.

Replacement Joinery

Replace rotted and old timber windows or out dated aluminium joinery and make your home warmer and dryer with new, stylish aluminium.

We can configure your new window or door to fit any existing space. Replace old louver kitchen windows with a modern bifold window or an old sliding door with a new stacker to optimise indoor outdoor living.

The best team

Fairview Windows & Doors

We are proud to offer our clients nearly 30 years of our experience in the joinery sector.

Our team provides the technical ability and commitment to workmanship that our clients have come to depend on. Whether it is your dream home or an innovative commercial project, we are here to help make that happen.

Our greatest assets are our experienced committed team, the quality of our joinery, and our commitment to see the job done right.

We offer the highest quality joinery through the ASL designed suites that cover all aspects of Commercial, Architectural and Residential builds, backed by industry experts.

Covering all of the Wellington and Wairarapa area, our dedicated and experienced team can be there to assist and support our projects.

Modern elegance with strength and beauty

Wellington Residence

Built on 500m² site, this design orientated architecturally built home optimises the beautiful harbour views, while achieving a spacious build on a footprint of 250m². Architectural Suite is used in many different ways to achieve floor to ceiling glass, creating space and light, unique and special.

Ponui Ridge

Positioned in one of New Zealand's most beautiful, but extreme climates, this is a home built to showcase the breath taking views of Palliser Bay, and resist the extreme weather conditions. A brilliant example of the Architectural Suite used to its full extent.

Omarapiti

Wellington Architecture Award 2008, the judges comments:

"Sensuous sustainability! Rigorous research and development has been undertaken at every level to achieve an elegant "off the grid" rural retreat. The rugged exterior is camouflaged into the Wairarapa hillside. The brief questioned the use of energy and the architect successfully used this constraint to enrich the design, creating atmospheres that celebrate contrasts in light and darkness, breeze and shelter, warmth and cool, robustness and refinement."

Award winning commitment to style & innovation

Carterton Events Centre

Winner of the ASL Commercial Project of the Year, Carterton Events Centre is a stunning example of the use of various Commercial Suites to produce a modern, light filled community centre.

Lansdowne Park Village

We understand the commitment to long term, large scale projects. Lansdowne Park Village is a high quality age care facility and retirement village from 1 bedroom apartments to private 3 bedroom villas. We have provided a range of Commercial, Architectural and Residential suites to achieve this project. We are proud of our on-going relationship with Lansdowne Park, their staff and their residence.

Torrens Terrace

These inner city apartments are a perfect example of how to achieve a modern stylish project in limited space and the challenges of working in central city. A range of Commercial, Architectural and Residential suites were used to achieve the high standard expected in projects of this calibre and our client's vision.
